## SUMMARY

Determined high school student committed to offering accessible opportunities to my community and developing a productive environment for myself and peers. I am seeking an opportunity in medicine to hone the skills gained from my three years of health science classes and position on the leadership team for my school's Health Occupation Students of America chapter.

## ACTIVITIES

**Hope Health Care** 2024 - Current  
Patient Care and Bereavement Volunteer

- Visited with hospice patients in senior homes to provide solace and comfort in their final days.
- Provided respite for regular patient caretakers in private residences.
- Made routine phone calls to families for the six months after the passing of a patient to tend to their needs.

**HOSA** 2022- Current  
Competition Chair

- Organized and oversaw a competition team of over 20 people, sending six to the Area competition and three to the State competition.
- Managed and participated in a care package project in conjunction with a Dallas based NGO.
- Scheduled guest speakers from various medical fields for club meetings.

**WE Club** 2018 - Current  
Founder and President

- Led my high school's chapter of a Canadian charity organization (WE) focused on creating change through five key pillars: health, food, water, education, and opportunity.
- Successfully organized events to address each pillar of change, most notably an annual sock drive, fundraisers for clean water pumps in rural African villages, and a feminine hygiene awareness and product collection campaign
